

SPOTLIGHTING ONE OF OUR FAVORITE MATH TEACHERS AND ROBOTICS MENTORS: ERIC REED

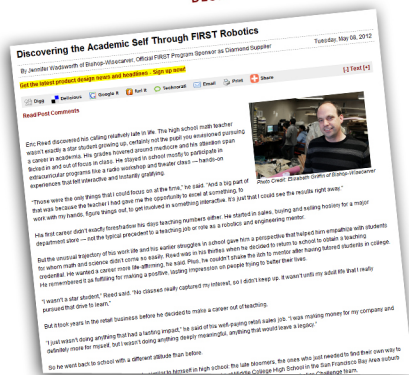

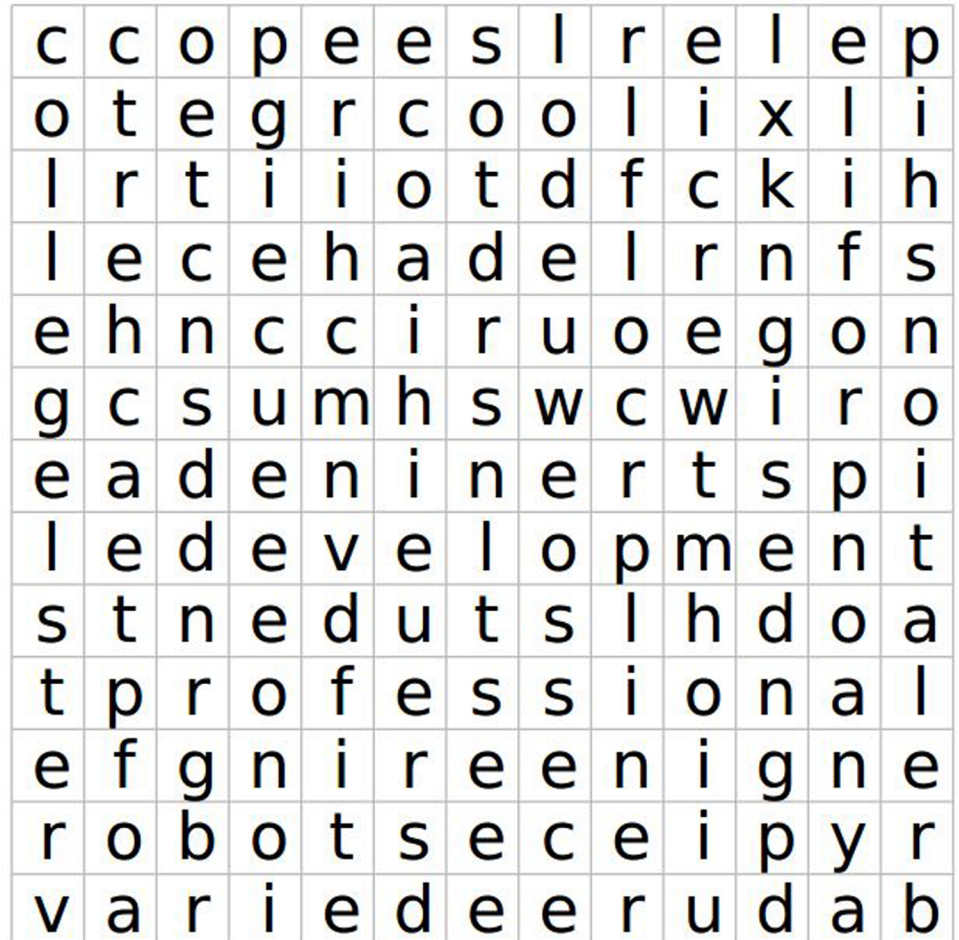

When Product Design & Development Magazine approached us about writing a piece for them on FIRST Robotics, we knew what — rather WHO — our focus would be. Eric Reed, a local math teacher who made it his mission to bring the nonprofit competitive robotics program to two Bay Area high schools. Read the profile piece we wrote online about him and the summary on our blog, then take try to tackle this week's #MotionMonday challenge! Good luck!

Read the PD&D article that goes with this puzzle, then take a crack at trying to solve it:
